SUBJECT INDEX TO VOLUME XV

ABDOMINAL and pelvic operations, The treatment of the peritoneum in, 754; viscera, Osteo-arthritis of the spine; with a report of three cases complicating diseases of the, 552
Abstract of surgery, An international, edit., 624
American Gynecological Society, trans., 229
Anæmia, Experiments in the treatment of acute, by blood transfusion and by intravenous saline infusion, 476
Anæsthesia, A new and simple form of apparatus for nitrous oxide-oxygen, 506; A new procedure in general, etherization intramuscularly, abs., 242; Spinal, with report of surgical clinics, 606; Observations on the use of intratracheal, in experimental work; with a description of a simple and inexpensive apparatus, 715; Nitrous oxide-oxygen-ether, notes on administration; a perfected apparatus, 281
Anæsthetic, The selection of an, 223; The uselessnessof warming, vapors, 724
Appendiceal, Uretero-, anastomosis; a surgical procedure designed to meet the emergency of transplantation of the ureter when shortened by disease or surgical accident, 464
Appendicitis, The pathogenesis of, abs., 362
Aorta, A method of controlling post-partum hæmorrhage by manual compression of the abdominal; abdominal section for placenta prævia, 662; Results of the permanent intubation of the thoracic, 245
Arteries, Surgery of the; some personal experiences, 255
Artery, Circular resection and suture of the axillary, for transverse laceration by the fracture-dislocation of anatomical neck of the humerus, 648
Arthroplasty, 529
Auditory, Intracranial division of the, nerve for persistent aural vertigo, 524
Aural vertigo, Intracranial division of the auditory nerve for persistent, 524
Axillary artery, Circular resection and suture of the, for transverse laceration by the fracture-dislocation of anatomical neck of the humerus, 648

BASTING stitch method, Pylorectomy by the, 504
Bismuth Poisoning; a clinical and pathological report, 309
Bladder, Regurgitation of fluid from the, to the kidney during ureteral catheterization; report of a case, 510
Blood transfusion and by intravenous saline infusion, Experiments in the treatment of acute anæmia by, 476
Bone tumor of the foot, An unusual, 119
Breast, On Paget's disease of the, 457

CADAVER, Transplantation from the, abs., 242
Cæsarean operation, Some unusual indications for, 226; section, The present status of abdominal; when and how should the operation be performed, 32
Calculus, The diagnosis of ureteral, by means of the wax-tipped whalebone filiform bougie used with Nitze cystoscope, 727
Cancer, of the œsophagus from the standpoint of intrathoracic surgery; a report of four resections, 639; The prognosis in radical abdominal operations for uterine, 147, trans., 237; The treatment of, by the radical operation, trans., 237; of the uterus, The primary and end results of fifty-one radical abdominal operations for, 135, trans., 237; of the uterus, Remote results in abdominal hysterectomies for, 238; Electrical desiccation as an adjunct to surgery, with special reference to the treatment of, 220
Carcinoma, of the cervix; with a report of twenty-eight cases, The radical abdominal operation for, 141; trans., 237
Catgut, A note on a picric acid and oil of cloves preparation of, 726; on a needle, Method of securing, 211
Catheterization, Regurgitation of fluid from the bladder to the kidney, during ureteral; report of a case, 510
Cecum, The, from a surgical standpoint, 487; The clinical importance of the movable and non-rotated, trans., 351
Cervix, The radical abdominal operation for carcinoma of the; with a report of twenty-eight cases, 141; trans., 237; Myoma of the, uteri, 668; Surgery of the, uteri, 39
Chicago Surgical Society, trans., 130, 132, 351, 626
Children, Some end results of intestinal stasis in, 46
Cholangiolitis, Unsuccessful surgery in disorders of the gall-ducts, together with a consideration of Naunyn's, 572; trans., 627
Chorio-epithelioma of the testicle; with a report of a case, 593
Chyle, cysts, Mesenteric, 1; trans., 132
Cirrhosis, of the liver; with report of cases, Talma operation for, 278
Corpus luteum, Concerning the function of the, and some allied problems, 588
Curvature, The results of the routine treatment of structural lateral, by means of plaster jackets, 343
Cystitis, of the trigone and the vesical neck, Chronic, 165; trans., 231
Cysts, Mesenteric chyle, 1; trans., 132

DECAPSULATION and establishment of collateral circulation, Results of experiments on kidneys with especial reference to, 702
Desiccation as an adjunct to surgery with special reference to the treatment of cancer, Electrical, 220
Diaphragmatic hernia; A case of non-traumatic; operation; recovery, 261
Disinfectant of the field of operation, Thymol-alcohol as a, 513
Dislocation, Lever action in the production of traumatic, 273; A new procedure for the reduction of, of the shoulder, abs., 242; of the femur, Central, 249
Diverticula; Intestinal, their etiology and pathogenesis; with a review of twenty-seven cases, 429
Drain in the treatment of small infected wounds about the hand, A new retractor-, 509
Drainage tube and inflated rubber bag arrangement for liver hæmostasis, and an acknowledgment of priority, An improvement to the, 342
Duodenum, Complete obstruction of the, resulting from the impaction of a large gall-stone, 267
Duct, Operative injuries of the thoracic, their importance and treatment, abs., 372
Dyspepsia, Operative treatment for so-called functional, 240

SUBJECT INDEX TO VOLUME XV

ABDOMINAL and pelvic operations, The treatment of the peritoneum in, 754; viscera, Osteo-arthritis of the spine; with a report of three cases complicating diseases of the, 552
Abstract of surgery, An international, edit., 624
American Gynecological Society, trans., 229
Anæmia, Experiments in the treatment of acute, by blood transfusion and by intravenous saline infusion, 476
Anæsthesia, A new and simple form of apparatus for nitrous oxide-oxygen, 506; A new procedure in general, etherization intramuscularly, abs., 242; Spinal, with report of surgical clinics, 606; Observations on the use of intratracheal, in experimental work; with a description of a simple and inexpensive apparatus, 715; Nitrous oxide-oxygen-ether, notes on administration; a perfected apparatus, 281
Anæsthetic, The selection of an, 223; The uselessnessof warming, vapors, 724
Appendiceal, Uretero-, anastomosis; a surgical procedure designed to meet the emergency of transplantation of the ureter when shortened by disease or surgical accident, 464
Appendicitis, The pathogenesis of, abs., 362
Aorta, A method of controlling post-partum hæmorrhage by manual compression of the abdominal; abdominal section for placenta prævia, 662; Results of the permanent intubation of the thoracic, 245
Arteries, Surgery of the; some personal experiences, 255
Artery, Circular resection and suture of the axillary, for transverse laceration by the fracture-dislocation of anatomical neck of the humerus, 648
Arthroplasty, 529
Auditory, Intracranial division of the, nerve for persistent aural vertigo, 524
Aural vertigo, Intracranial division of the auditory nerve for persistent, 524
Axillary artery, Circular resection and suture of the, for transverse laceration by the fracture-dislocation of anatomical neck of the humerus, 648

BASTING stitch method, Pylorectomy by the, 504
Bismuth Poisoning; a clinical and pathological report, 309
Bladder, Regurgitation of fluid from the, to the kidney during ureteral catheterization; report of a case, 510
Blood transfusion and by intravenous saline infusion, Experiments in the treatment of acute anæmia by, 476
Bone tumor of the foot, An unusual, 119
Breast, On Paget's disease of the, 457

CADAVER, Transplantation from the, abs., 242
Cæsarean operation, Some unusual indications for, 226; section, The present status of abdominal; when and how should the operation be performed, 32
Calculus, The diagnosis of ureteral, by means of the wax-tipped whalebone filiform bougie used with Nitze cystoscope, 727
Cancer, of the œsophagus from the standpoint of intrathoracic surgery; a report of four resections, 639; The prognosis in radical abdominal operations for uterine, 147, trans., 237; The treatment of, by the radical operation, trans., 237; of the uterus, The primary and end results of fifty-one radical abdominal operations for, 135, trans., 237; of the uterus, Remote results in abdominal hysterectomies for, 238; Electrical desiccation as an adjunct to surgery, with special reference to the treatment of, 220
Carcinoma, of the cervix; with a report of twenty-eight cases, The radical abdominal operation for, 141; trans., 237
Catgut, A note on a picric acid and oil of cloves preparation of, 726; on a needle, Method of securing, 211
Catheterization, Regurgitation of fluid from the bladder to the kidney, during ureteral; report of a case, 510
Cecum, The, from a surgical standpoint, 487; The clinical importance of the movable and non-rotated, trans., 351
Cervix, The radical abdominal operation for carcinoma of the; with a report of twenty-eight cases, 141; trans., 237; Myoma of the, uteri, 668; Surgery of the, uteri, 39
Chicago Surgical Society, trans., 130, 132, 351, 626
Children, Some end results of intestinal stasis in, 46
Cholangiolitis, Unsuccessful surgery in disorders of the gall-ducts, together with a consideration of Naunyn's, 572; trans., 627
Chorio-epithelioma of the testicle; with a report of a case, 593
Chyle, cysts, Mesenteric, 1; trans., 132
Cirrhosis, of the liver; with report of cases, Talma operation for, 278
Corpus luteum, Concerning the function of the, and some allied problems, 588
Curvature, The results of the routine treatment of structural lateral, by means of plaster jackets, 343
Cystitis, of the trigone and the vesical neck, Chronic, 165; trans., 231
Cysts, Mesenteric chyle, 1; trans., 132

DECAPSULATION and establishment of collateral circulation, Results of experiments on kidneys with especial reference to, 702
Desiccation as an adjunct to surgery with special reference to the treatment of cancer, Electrical, 220
Diaphragmatic hernia; A case of non-traumatic; operation; recovery, 261
Disinfectant of the field of operation, Thymol-alcohol as a, 513
Dislocation, Lever action in the production of traumatic, 273; A new procedure for the reduction of, of the shoulder, abs., 242; of the femur, Central, 249
Diverticula; Intestinal, their etiology and pathogenesis; with a review of twenty-seven cases, 429
Drain in the treatment of small infected wounds about the hand, A new retractor-, 509
Drainage tube and inflated rubber bag arrangement for liver hæmostasis, and an acknowledgment of priority, An improvement to the, 342
Duodenum, Complete obstruction of the, resulting from the impaction of a large gall-stone, 267
Duct, Operative injuries of the thoracic, their importance and treatment, abs., 372
Dyspepsia, Operative treatment for so-called functional, 240

ECLAMPSIA, Investigation into the cause and treatment of, abs., 243; The treatment of, 180
Elbow fractures, The operative treatment of, abs., 241
Ether administration, Notes on, 722
Etherization intramuscularly, A new procedure in general anæsthesia; abs., 242
Exophthalmic goiter, Report on, based on the experience of the members of the Chicago Surgical Society, 585; trans., 626
Extension apparatus, The usefulness of an, in the treatment of fractures of the lower extremity, 206
Extremity, The usefulness of an extension apparatus in the treatment of fractures of the lower, 206

FALLOPIAN tube; Hernias of the ovary and of the, an analytical review of all undoubted cases of this nature reported in the French, German and English Medical Literature from 1890 to 1910 inclusive, with a report of unpublished cases, 65; A malformation of the, 680
Femur, Central dislocation of the, 249
Finger in rhinoplasty — improved technique, The, 720
Foot, An unusual bone tumor of the, 119
Fractures, of the lower extremity, The usefulness of an extension apparatus in the treatment of, 206; The operative treatment of elbow, abs., 241; Treatment of ununited, 252

GALL-BLADDER surgery, End results in, 27
Gall-ducts, Unsuccessful surgery in disorders of the, together with a consideration of Naunyn's cholangiolitis, 572; trans., 627
Gall-Stone, Complete obstruction of the duodenum resulting from the impaction of a large, 267
Gastroenteroptosis; when is surgery indicated? 21
Gastro-intestinal stasis, The principles underlying the surgical treatment of, due to causes other than strictural or ulcerative conditions, 365; trans., 521
Gastric ulcer, Some phases in the treatment of, 126
Genito-urinary surgery, recently done in Vienna and Berlin, Some, 730
Goiter, Report on exophthalmic, based on the experiences of the Members of the Chicago Surgical Society, 585; trans., 626
Gonorrhœal pyonephrosis, Clinical and pathological notes on a case of, 242
Gynecology; review of the new evidence, The X-ray in, 602

HÆMOLYTIC streptococcus and puerperal septicæmia: a bacteriological study of one hundred and three labor cases with reference to prognosis prophylaxis and specific therapy, 682
Hæmorrhage by manual compression of the abdominal aorta; abdominal section for placenta, A method of controlling post-partum, 662; during pregnancy, delivery and childbed, The surgical treatment of uterine, trans., 751
Hæmostasis, and an acknowledgment of priority, An improvement to the drainage tube and inflated rubber bag arrangement for liver, 342
Hernia, A case of non-traumatic diaphragmatic, operation; recovery, 261; Sliding, 333; trans., 351
Hernias of the ovary, of the Fallopian tube; an analytical review of all undoubted cases of this nature reported in the French, German and English literature from 1890 to 1910, inclusive, with a report of unpublished cases, 63
Horseshoe kidney, The clinical importance of the, 467
Hydronephrosis, procedure by complete and incomplete ligation of the ureter, Experimental, 296
Hypernephroma of the kidney, 665; trans. 753
Hypophysis cerebri, The topography of the, 199

ILEOSIGMOIDOSTOMY, A method of, with the formation of a sigmoid valve, 341
Iodine in preparation for labor cases, Tincture of, 120
International abstract of surgery, An, edit., 624
Intestinal anastomosis; with report of twenty-eight cases, A simplified technique for end-to-end, 110; diverticula; their etiology and pathogenesis with a review of twenty-seven cases, 429; stasis in children, Some end results, 46
Intestine, The effect of extensive resections of the small, abs., 361; Fibrous stenoses of the small, 242
Intestines, Abnormal positions of, trans., 351
Intrathoracic surgery, Cancer of the œsophagus from the standpoint of; a report of four resections, 639
Intramuscularly, A new procedure in general anæsthesia; etherization, abs., 242
Intratracheal anæsthesia in experimental work; with a description of a simple and inexpensive apparatus, Observations on the use of, 715

JACKSON'S membrane and allied conditions, Abnormal positions of the intestines, trans., 351
Jaw, Bilateral resection of the, for prognathism; with report of a case, 51; trans., 120

KELOID formation in scar after mastoid operation, 508
Kidney, The clinical importance of the horseshoe, 467; Hypernephroma of the, 665; trans., 757; Nephroureterectomy in tuberculosis of the, 461; during ureteral catheterization; report of a case, Regurgitation of fluid from the bladder to the, 510
Kidneys with especial reference to decapsulation and establishment of collateral circulation, Results of experiments on, 702

LABOR cases, Tincture of iodine in preparation for, 120
Lane's kink, and allied conditions, Abnormal positions of the intestines, trans., 351
Laparotomy sponge, The use of continuous fixed, trans., 231
Lateral curvature by means of plaster jackets, The results of the routine treatment of structural, 343
Lever action in the production of traumatic dislocation, 273
Litholapaxy, as an office operation in selected cases, 121; trans., 129
Liver, Talma operation for cirrhosis of the, with report of cases, 278; hæmostasis and an acknowledgment of priority, An improvement to the drainage tube and inflated rubber bag arrangement for, 342
Lymphatics, Infection of the retroperitoneal, 30

MANDIBLE posterior to the second molars for correction of prognathism, Bilateral resection of the, 54
Mastoid operation, Keloid formation in scar after, 508
McDowell, Some facts not generally known regarding Ephraim, 496
Menstruation without ovaries, trans., 229
Mesenteric chyle cysts, 1; trans., 132
Multiple myeloma, 653
Myoma of the cervix uteri, 668
Myomata on the blood supply of the uterus with special reference to abnormal uterine bleeding, The influence of, trans., 234

NEEDLE, A method of securing catgut on a, 211
Needles; pleural aspiration; rib cutting forceps, Surgical, 209
Nephrectomy without drainage for tuberculous kidney, 523
Nephro-ureterectomy in tuberculosis of the kidney, 461
Nerve for persistent aural vertigo, Intracranial division of the auditory, 524
Nitrous oxide-oxygen anæsthesia, A new and simple form of apparatus for, 506; oxide-oxygen-ether anæsthesia; notes on administration; a perfected apparatus, 281

OBSTETRICS, On the teaching of, 636
Œsophagus from the standpoint of intrathoracic surgery; a report of four resections, Cancer of the, 639
Opsonins and vaccines in puerperal sepsis, 699
Osteo-arthritis of the spine; with a report of three cases complicating disease of the abdominal viscera, 552
Ovaries, Menstruation without, trans., 229
Ovary, of the Fallopian tube; an analytical review of all undoubted cases of this nature reported in the French, German and English Medical Literature from 1890 to 1910 inclusive, with a report of unpublished cases, Hernias of the, 63

PAGET'S disease of the breast, On, 457
Pelvic operations, The treatment of the peritoneum in abdominal and, trans., 751
Peritoneum in abdominal and pelvic operations, The treatment of the, trans., 751
Picric acid and oil of cloves preparation of catgut, A note on a, 726
Placenta under physiological and pathological conditions, An experimental study of the, 558; prævia, A method of controlling post-partum hæmorrhage by manual compression of the abdominal section for, 662; trans., 753
Pleural aspiration; rib cutting forceps, Surgical needles, 209
Post-partum hæmorrhage by manual compression of the abdominal aorta; abdominal section for placenta prævia, A method of controlling, 662; trans., 753
Pregnancy, A further report on the relation of thyroidism to the toxæmia of, 192; Tuberculosis and, abs., 243, The indications for the type of operation to select in the toxæmia of, 173; trans., 235
Procidentia, The principles involved in the operation for extreme cases of, an operation for permanent relief, trans., 750; of the uterus, trans., 240
Procidentia uteri with rectocele and cystocele, The principle involved in the operation for the relief of, trans., 239; suprapubic plication of vagina and conjoined shortening of uterosacral and broad ligaments, 322
Prognathism, Bilateral resection of the jaw for, 51; Bilateral resection of the mandible posterior to the second molars for correction of, 54; trans., 130
Prolapse of the rectum, The pathogenesis, anatomy and cure of, 7; of the uterus, 184; trans., 240; and its complications, Gymnastics and other mechanical means in the treatment of visceral, 130; trans., 232
Prolapsus uteri with their advantages and disadvantages Consideration of the modern methods of treatment of, trans., 239
Prostatectomy, Technique of suprapubic, 511
Prostatic enucleation, Technical points in, 599
Pseudohermaphroditism, A case of, 562
Pubiotomy; report of ten cases and a review of its history in America, 213
Puerperal, sepsis, The surgical treatment of, 338; Opsonins and vaccines in, 708; septicæmia, hæmolytic streptococcus and, 682
Pyelitis, The treatment of, 444
Pylorectomy by the basting stitch method, 504
Pyosalpinx, The torsion of tubal enlargements with reference especially to, trans., 233

RECTOCELE and cystocele, The principle involved in the operation for the relief of procidentia uteri with, trans., 239
Rectum, The pathogenesis, anatomy and cure of prolapse of the, 7
Renal tumors, On polycystic, abs., 242; varix, 59
Resections of the small intestine, The effect of extensive, abs., 361
Retroperitoneal lymphatics, Infection of the, 30
Rhinophyma, 622
Rhinoplasty, The finger in; improved technique, 720
Rib cutting forceps, Surgical needles; pleural aspiration; 209

SALINE infusion, Experiments in the treatment of acute anæmia by blood transfusion and by intravenous, 476
Sarcoma with methyl-blue in the living patient, Attempt at staining, 474
Sepsis, The surgical treatment of puerperal, 338; Opsonins and vaccines in puerperal, 699
Septicæmia, Hæmolytic streptococcus and puerperal, 682
Serum, in suppurative processes, The curative effect of the normal animal, 481
Sigmoid valve, A method of ileosigmoidostomy with the formation of a, 341
Silver wire cable an ideal buried metallic suture, 350
Sixth International Congress of Obstetricians and Gynecologists, trans., 738
Societies, American Gynecological, trans., 229; Chicago Gynecological, trans., 521; Chicago Surgical, trans., 130, 132, 351, 626; Sixth International Congress of Obstetricians and Gynecologists, trans., 738; Washington Surgical, trans., 129, 754
Spinal anæsthesia, with report of surgical clinics, 606
Spine, Osteo-arthritis of the, 552
Sponge, The use of continuous fixed laparotomy, trans., 231
Staining sarcoma with methyl-blue in the living patient Attempt at, 474
Staphylococcus pyogenes aureus to infectious thrombophlebitis, Experiments on the relation of the, abs., 362
Stasis, The principles underlying the surgical treatment of gastro-intestinal, 365; trans., 521
Stenoses of the small intestine, Fibrous, 242
Sterility in the female without marked gross pathology, 706
Sterilization, The technique of tubal, 514
Streptococcus and puerperal septicæmia, Hæmolytic, 682
Suppurative processes, The curative effect of the normal animal serum in, 481
Surgery, An international abstract of, edit., 624
Suture, Silver wire cable an ideal buried metallic, 350

TALMA operation for cirrhosis of the liver; with report of cases, 278
Tenosynovitis, Chronic infective, 43
Testicle, Chorio-epithelioma of the, 593
Thoracic, duct, Operative injuries of the, abst., 362; aorta, Results of the permanent intubation of the, 245
Thrombophlebitis, Experiments on the relation of the staphylococcus pyogenes aureus to infections, abs., 262

Thymol-alcohol as a disinfectant of the field of operation, 513
Thyroidism, to the toxæmia of pregnancy, A further report on the relation of, 192; trans., 235
Torsion of tubal enlargements with reference to pyosalpinx, The, trans., 233
Toxæmia, The treatment of acute and fulminant, 177; trans., 235; of pregnancy, A further report on the relation of thyroidism to the, 192; of pregnancy, The indications for and the type of operation to select in the, 173; trans., 235
Transfusion and by intravenous saline infusion, Experiments in the treatment of acute anæmia by blood, 476
Transplantation from the cadaver, abs., 242
Tubal, sterilization, The technique of, 514; enlargements with reference especially to pyosalpinx, The torsion of, 233
Tube, A malformation of the Fallopian, 680
Tuberculosis, of the kidney, Nephro-ureterectomy in, 461; and pregnancy, abs., 243
Tuberculous kidney, Nephrectomy without drainage for, 523

ULCER, Some phases in the treatment of gastric, 126
Ureter, Experimental hydronephrosis, procedure by complete and incomplete ligation of the, 296.
Ureteral, calculus by means of the wax-tipped whalebone filiform bougie used with Nitze cystoscope, The diagnosis of, 727; catheterization, Regurgitation of fluid from the bladder to the kidney during, 510; ligation, The effects of, 290
Ureterectomy in tuberculosis of the kidney, Nephro-, 461
Uretero-appendiceal anastomosis, 464
Uteri, Procidentia, 322; containing the tumors, The influence of myomata on the blood supply of the uterus, with special reference to abnormal uterine bleeding, based on one hundred and fifty injected, trans., 234; primary and end results, The radical abdominal operation for cancer of the cervix, trans., 233; Surgery of the cervix, 39; The radical abdominal operation for carcinoma of the cervix, 141; trans., 237; Consideration of the modern methods of treatment of prolapsus, trans., 239; with rectocele and cystocele, The principle involved in the operation for the relief of procidentia, trans., 239
Uterine, hæmorrhage during pregnancy, delivery and childbed, The surgical treatment of, trans., 753; cancer, The prognosis in radical abdominal operations for, 147; trans., 237
Uterus, Prolapse of the, 184; trans., 240; Procidentia of the, trans., 240; Remote results in abdominal hysterectomies for cancer of the, trans., 238; Primary and end results of fifty-one radical abdominal operations for cancer of the, 135; trans., 237

VACCINES, in puerperal sepsis, Opsonins and, 699
Varicocele and its operative treatment, abs., 362
Varix, Renal, 59
Vertigo, Intracranial division of the auditory nerve for persistent aural, 524
Vesical neck, Chronic cystitis of the trigone and the, 165; trans., 231
Vienna and Berlin, Some genito-urinary surgery recently done in, 730
Visceral prolapse and its complications, Gymnastics and other mechanical means in the treatment of, 150; trans., 232

WASHINGTON Surgical Society, trans., 129, 754
Wax-tipped whalebone filiform bougie used with Nitze cystoscope, The diagnosis of ureteral calculus by means of the, 727
Wounds about the head, A new retractor-drain in the treatment of small infected, 509

X-RAY in gynecology; review of the new evidence, The, 602

INDEX TO BOOK REVIEWS

A Cross Section Anatomy. Albert C. Eycleshymer and Daniel M. Shoemaker, 244
Applied Anatomy. Gwilym G. Davis, 134
Blood Vessel Surgery and Its Applications. Charles Guthrie, 638
Diseases of the Nose and Throat. St. Clair Thomson, 36
Hand-Book of Electrotherapeutics. William James Dugan, 244
Infant Feeding. Clifford G. Grulee, 244
Manual of Surgical Treatment. Sir W. Watson Cheyne and F. F. Burghard, 363
Obstetrics. J. B. DeLee, 134
Plaster of Paris and How to Use it. Martin W. Ware, 638
Practical Gynecology. E. E. Montgomery, 364
Sex Hygiene for the Male and What to Say to the Boy. G. Frank Lydston, 638
The Diseases of China. W. Hamilton Jefferys and James L. Maxwell, 638
The Growth of Bone. Sir William Macewen, 134
The Sexual Life of Woman. E. Heinrich Kisch, 363
Urology. Ramon Guiteras, 363
